PRODUCT GUARANTEE and CARE INSTRUCTIONS

Please Keep Safe

Thank you for choosing Sleeppeeze. We hope that you will be delighted with your new purchase. With nearly 100 years of producing high quality mattresses you can be assured that every product we make is produced with care and to the highest standard.

HELP AND ADVICE

If you have any queries regarding these instructions please contact us before proceeding with the assembly of your product.

PRODUCT CARE and MAINTENANCE

Please take some time to read these guidelines and recommendations. They are designed to help you get the most from your bed and ensure you do not invalidate your guarantee.

DO...

VENTILATION

Carefully unwrap your mattress/divan upon delivery and leave it in a well ventilated room for a few hours before covering it or sleeping on it. Some mattresses with natural or foam fillings may have a smell which should dissipate after 14 days with regular loosening of bed linen to help air circulation. Ensure the room continues to be well ventilated to help the mattress remain fresh and odour free.

FITTINGS

Carefully remove the bag of fittings which is attached to the base in order to avoid damaging the fabric.

BASE

We recommend using one of our divans, as an old base may not provide sufficient support and may result in the mattress sagging. If you have purchased a mattress only, ensure that the frame or divan base on which it rests is an equivalent size and solid foundation. If the frame or base is slatted, then the recommended maximum distance between each slat is 3" (76mm).

PROTECTION

Use a mattress protector to help prolong the life of your mattress. This will minimise wear and tear, guard against marks and stains and help maintain the appearance of your new mattress.

DO...

BODY IMPRESSION

Due to the amount of quality upholstery in your mattress, your body will make a natural impression in the sleeping area, which is quite normal and not a fault.

TURN / ROTATE

Turning and/or rotating your mattress ensures even distribution of body weight and helps prolong the life of the mattress:

> Please follow the turning labels on the mattress.

Mattress handles are to aid turning and rotating, a mattress should not be lifted by handles alone.

AERATION

Replacing the covers and sheets on a regular basis will encourage air circulation through the mattress and allow fillings to keep fresh and odour free.

MOVING

To avoid dragging the mattress on the ground which may cause dirty marks, tears and other damage, ensure two people are used when moving the mattress from room to room or into storage.

PRODUCT CARE and MAINTENANCE

Continued....

DON'T...

BEND/ROLL

Do not bend, fold or roll your mattress as this can cause serious damage to the spring unit, the fillings and affect the overall strength and durability.

OVERLOAD

Avoid placing exceptionally heavy or bulky objects onto the mattress and do not overload any divan drawers as this may cause permanent damage.

JUMPING

Standing or jumping on your bed can cause damage to both the mattress and the base.

STANDING OR KNEELING

Do not stand, kneel or sit on the divan base as this will damage the surface, causing the base and mattress to dip. The base is designed to support the distribution of weight from the mattress evenly over its entire area.

SITTING

Your mattress has been specifically designed to support weight evenly across the entire surface during sleep. Sitting on the mattress for prolonged periods of time will distort springs and affect the settlement of the fillings.

MATTRESS LABEL

Do not remove the mattress, fire resistance certification or base labels as these serve as a means of identification to establish your guarantee.

CLEANING PRODUCTS

Should you need to clean your mattress, any stains should be treated immediately using a damp cloth. Please avoid using detergents or chemical cleaners as these may bleach or disintegrate the fabric.

STORING

Do not store the mattress on its side for more than one day.

SMOKING

Do not smoke in the bed or use open flames near the bed.

OUR PRODUCT GUARANTEES

Sleeppeeze is confident that all of our beds are made to the highest standards. Therefore we will offer the following guarantee:

> 5 Years: Sleeppeeze divan sets (Sleeppeeze mattress purchased with a Sleeppeeze divan base) and Sleeppeeze mattresses.

In the unlikely event of a defect becoming apparent, please contact us within ONE month of the problem occurring. Please advise the nature of the issue and any photographs you have taken, which will help us to identify the potential cause. Following an inspection, the defective product will be repaired or replaced free of charge. This may be at the discretion of Sleeppeeze Limited, but does not affect your statutory rights.

TERMS AND CONDITIONS

> General wear and tear, including staining, excessive soiling, abrasion, tears and burns, misuse and normal bed filling settlement are excluded.

> This guarantee is non-transferable and valid from the date of the original purchase only.

> Consistent with meeting its obligations under the guarantee, Sleeppeeze Limited reserves the right to undertake the lowest cost option to it. This may involve rectifying the problem, arranging for the unsatisfactory component to be replaced or refunding part of the original purchase price.

> This guarantee does not extend to non-domestic usage, or to goods which are taken outside of the UK.

> This guarantee may be invalidated if the purchaser does not follow or carry out proper care procedures as outlined in the guidelines or where the product has been adapted, abused or altered.

> The terms of this guarantee in no way limits legal and statutory rights.

> Sleeppeeze Limited reserves the right to change specifications without prior notice as part of our continuous improvement policy.
