

Mechanical Engineer
Full Time, permanent
39 hours per week
Hourly Rate: £15.25 - £16.25 (depending on experience)

We are looking for an ambitious, professional and career minded individual to join our team of specialist engineers in supporting the manufacturing function to ensure minimum downtime of plant and equipment.

As the mechanical engineer, you will be involved in overseeing the installation, maintenance, and repair of industrial mechanical equipment.

Typical duties of the role will include:

- Fixing and repairing different types of mechanical machinery
- Planning and completing planned maintenance
- Assisting with any machinery on site
- Project work as and when required
- Installation of plant and equipment
- Assisting other engineers as and when required

Ideally, candidates must have proven experience of working in an engineering role within a manufacturing environment with at least a City & Guilds Engineering qualification. Experience of working on industrial or commercial machines would be advantageous.

Candidates must also have a flexible approach to work and be able to demonstrate knowledge of pneumatic controls and components, with a desire to learn and understand new machinery.

Working hours will be:

Monday - Thursday	08.00am to 4.30pm (with a ½ hour unpaid lunch)
Friday	08.00am to 3.30pm (with a ½ hour unpaid lunch)

You will be expected to work a reasonable amount of overtime to support production. This is usually 1 to 2 hours each day Monday to Friday plus 4 hours on Saturday morning on alternate weeks

Please send your CV to careers@sleepeeze.co.uk

If shortlisted, you will be contacted via telephone to arrange an interview
